| <b>School of Secondary Education</b><br><i>Triveni School,kothagudem</i> <ul style="list-style-type: none"><li>◦ GPA: 10</li></ul>                                                                   | <i>2019 – 2020</i> |

## Skills

---

**Programming** :Python,Java  
**Database** : MySQL  
**Frontend** : HTML, CSS, JavaScript  
**Libraries** : Pandas,Numpy

## Certifications

- 
- Participated in INNOVATION CHALLENGE organised by Center for Innovation and Entrepreneurship , MLRIT,2023.
  - Participated in WEB MANIA HACKATHON organised scope of Programming Excellence Club,MLRIT,2023.
  - Attained recognition for course completion in Python by CISCO ,2024.
  - Obtained certification in HTML and CSS through a 3-day Bootcamp by LetsUpgrade, 2025.

## Projects

---

### Air Canvas using Python

- Developed an Air Canvas using Python to enable users to draw in the air using hand gestures.
- Implemented real-time hand tracking using OpenCV for gesture-based drawing.
- Technologies used:Python,OpenCV.

### Electric Vehicle Sales Analysis in India using Python

- Developed an analysis system in Python to study electric vehicle (EV) sales across different regions of India.
- Identified trends and sales patterns across various states, providing valuable insights for manufacturers, policymakers, and investors.
- Technologies used:Python,Pandas.
